### Details of Our Services

#### Monthly Investment

To get the full benefits of dynaCERT technology and KarbonKleen's expertise will only cost \$400/Month subscription

#### Guaranteed Results

For any Semi-Truck that drives 5000 miles/8047 km in a month if HydraLytics™ measures less than \$400 savings in a month you get your monthly subscription returned.

#### Ease of Implementation and Use

Installation takes less than 4 hours a truck and KarbonKleen will provide you with full training on the HydraLytics™ software.. Contact us for a demonstration.

As you evaluate an investment in dynaCERT's technology, many clients and potential clients feel a barrier to implementation is the upfront cost and the understanding of the rate of their Return on Investment. With the KarbonKleen Money Back Guarantee for only \$400 USD per month not only will you have your dynaCERT's HydraGEN™ Technology installed but if your unit does not save you \$400+ in any month you will get that monthly subscription returned. Guaranteed Results!

Diesel cost savings based fuel reduction in HydraLytics™ software and per unit in-country diesel cost as determined by GlobalPetrolPrices.com on the first of each month.
